1. Problem Definition

i. Introduction

In 2007, TRYM-GIM became the first and largest international fitness company in America. With the mission of "Make Life Better", TRYM-GYM is not just like normal gym. This is the heart of dynamic lifestyle, to inspire, bring joyful fun as well as new vitality for the community.

This is where convergence of exercise, fashion and entertainment in a healthy environment, full of energy. From music and light to modern equipment and world-class coaches, every detail is meticulously prepared to provide a positive and positive experience. Best for customers. The success of TRYM-GYM is linked to the vision and leadership of its founder and CEO, Randy G. Dobson. Randy has blown his passionate company of life and entertainment, which has revolutionized the way fitness is practiced throughout Europe.

The members of TRYM-GYM's senior management team have been extremely important to the development of some of the top fitness brands, such as 24 Hour Fitness, California Fitness, Jackie Chan Sport, UFC Gyms, Crunch Fitness, and Les Mills.

With a combined board of over 30 years of experience in dozens of different countries, TRYM-GYM has owned and is one of the most experienced and professional leaders in the fitness industry. This is also the main reason TRYM-GYM is loyal and consistent in implementing the brand's commitment to make life better.

Trim-Gym is 35 years old fitness centre. Fitness fads come and go, and we have learned what is classic and has longevity: a commitment to serving others. We have decided to come up with our website. It will provide all information about us to our clients and fitness freak people.

A website needs to be designed to details of various locations of our fitness centres, types of services we offer and various instruments available with us.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

Requirement Specification:

Trym-Gym site is to be created based on the following requirements.

- 1) The Home Page should be created with a suitable logo, the header section can be added which will show various fitness images.
- 2) The site must contain the links to navigate through various fitness therapy.
- 3) Site should have different section for Men and Women and display fitness programs accordingly.
- 4) Various exercises must be categorized like (Cardio, Muscle, ABS, Arms etc.)
- 5) Details and Guidelines should be provided for each type of workout/exercise.
- 6) Website should provide section for various Nutrition plans offered in the Gym.
- 7) Training Cost should be provided for various plans offered.

- 8) Website should provide list of all branches with proper address and location map.
- 9) Gallery section should be added for viewing different images.
- 10) Feedback must be allowed to enter by the viewer
- 11) Site map, Gallery, about us, Queries link.
- 12) There should be a "Contact Us" page which will have the Address of the Company which should be displayed using GeoLocation API (eg. GoogleMaps) and the email address which when clicked will invoke the local mail client from where they can send an email.
- 13) The complete description must be allowed to get download as pdf or doc file.
- 14) The advertise section with various facilities provided should be mentioned.
- ii. Implementation Environment
 - Notepad++/HTML editor
 - Google Chrome
 - Adobe Photoshop CS6

User Stories

User type (Example: Customer)
